

Integrity Medical Group provides urgent care and family medicine

Integrity Medical Group is a group of health care professionals who came together with a single common purpose: to provide our community with a better health care experience. With our years of experience, we have the ability to bridge the gap between urgent care and family medicine. From the moment you enter our door we do everything possible to make your experience with us pleasant and satisfying.

An emphasis on performing in-office procedures means lower costs, immediate results, and fewer specialty referrals. Urgent walk-in appointments are welcome because we understand people cannot always predict health problems in advance. We handle injuries that other offices would send to the Emergency Department. This means fewer ER deductibles, more efficient care, and less drain on your

health savings account.

Integrity has two full time providers, Dr. Tim Rasor and Lynn Dahlke, APNP. Dr. Tim Rasor, raised on a small farm in southwestern Ohio, received his Bachelor of Science in Engineering and Doctorate in Medicine from The Ohio State University. Following a Family Practice Residency at Wausau Hospital Center, he spent the next 18 years in emergency medicine, serving for 16 years as the Medical Director at New London Family Center's Emergency Department. With the creation of Integrity Medical Group, he returns to Family Practice with an experienced staff and a facility readymade to handle much of the acute care that formerly had to go to an ER.

Lynn Dahlke, a Family Nurse Practitioner, graduated from UW-Oshkosh with a Bachelor's Degree in Science in 1987, a Bachelor's Degree in Nurs-

ing in 1995, and a Master's Degree in Nursing in 2007. She served two years of active duty in the United States Air Force. Between schooling and the military, she married and had four boys. Lynn is proud to be a part of Integrity Medical Group, practicing health care in a setting that truly puts the patient and their family first. As a Nurse Practitioner, she believes in treating the whole person, not the disease, illness or injury. Lynn especially enjoys working with women and their families in promoting wellness across their lifespan. In her off time you can find her at one of her boys' extracurricular events or logging miles in anticipation of her next marathon.

Many people transfer medical records and change health care providers each time their employer changes insurance carriers. At Integrity, we accept most all area insurance plans.
